BACHELOR OF SCIENCE (BS) DEGREE WITH A MAJOR IN BIOSCIENCES AND A MAJOR CONCENTRATION IN BIOCHEMISTRY

Program Learning Outcomes for the BS Degree with a Major in Biosciences and a Major Concentration in Biochemistry

Upon completing the BS degree with a major in Biosciences and a major concentration in Biochemistry, students will be able to:

- 1. Demonstrate a broad knowledge of core concepts in biology.
- 2. Demonstrate an advanced understanding of biochemistry.
- Demonstrate the ability to access scientific literature in the biological sciences and to use critical thinking skills to evaluate primary and secondary sources of biological research.
- Demonstrate the ability to apply the process of science through original research, including designing experiments and/or building mathematical models, and collecting, analyzing, and interpreting data.
- 5. Demonstrate effective oral, written, and visual communication skills, including communicating science to diverse audiences.

Requirements for the BS Degree with a Major in Biosciences and a Major Concentration in Biochemistry

For general university requirements, see <u>Graduation Requirements</u> (https://ga.rice.edu/undergraduate-students/academic-policiesprocedures/graduation-requirements/). Students pursuing the BS degree with a major in Biosciences and a major concentration in Biochemistry must complete:

- A minimum of 70 credit hours to satisfy major requirements.
- · A minimum of 120 credit hours to satisfy degree requirements.
- · A minimum of 30 credit hours taken at the 300-level or above.
- · Core courses common to all major concentrations.
- The requirements for the major concentration in Biochemistry. When students <u>declare the major (https://ga.rice.edu/undergraduatestudents/academic-opportunities/majors-minors-certificates/#text)</u> in Biosciences, students must additionally identify and declare one of the four major concentrations, either in:
 - <u>Biochemistry</u> (p. 1), or
 - <u>Cell Biology and Genetics (https://ga.rice.edu/</u> programs-study/departments-programs/naturalsciences/biosciences/cell-biology-and-genetics-bs/ #requirementstext), or
 - Ecology and Evolutionary Biology (https://ga.rice.edu/ programs-study/departments-programs/natural-sciences/ biosciences/ecology-and-evolutionary-biology-bs/ #requirementstext), or

 Integrative Biology (https://ga.rice.edu/programs-study/ departments-programs/natural-sciences/biosciences/ integrative-biology-bs/#requirementstext). 1

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the <u>Office of the Registrar</u> (<u>registrar@rice.edu</u>).

The BS degree emphasizes broad foundational knowledge of biology with in-depth exposure to the subfield of biochemistry that includes independent research.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/ officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Summary

Code	Title	Credit Hours
Total Credit Hours Required for the Major in Biosciences and a Major Concentration in Biochemistry		Minimum of 70
Total Credit Hours Biosciences and a	Required for the BS Degree with a Major in Major Concentration in Biochemistry	120

Total Credit Hours	120

Total Credit Hours

Footnotes and Additional Information

- Note: University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying FWIS or distribution requirements may additionally meet other requirements, such as the Analyzing Diversity (AD) requirement, or some of the student's declared major, minor, or certificate requirements. Additional Credit Hours to Complete Degree Requirements include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.
- 1 PHYS 101 and PHYS 103 or PHYS 111 may be substituted for PHYS 125. The BioSciences department has determined that credit awarded for PHYS 141 CONCEPTS IN PHYSICS I is not eligible for meeting the requirements of the Biosciences major.
- 2 In certain instances, and with appropriate approvals, the lower-level courses STAT 280 or STAT 180 may be substituted for STAT 305 (or STAT 315/DSCI 301).
- 3 Students must select 1 elective course (3 credit hours) from courses offered by the Wiess School of Natural Sciences or the George R. Brown School of Engineering at the 200-level or above, designated as a lecture course. Courses offered by the Wiess School of Natural Sciences or the George R. Brown School of Engineering include the following subject codes: ASTR, BIOE, BIOS, CEVE, CHBE, CHEM, CMOR, COMP, DSCI, EDES, EEPS, ELEC, ENGI, GLHT, HEAL, KINE, MATH, MECH, MSNE, NEUR, NSCI, PHYS, RCEL, and STAT.
- 4 PHYS 102 and PHYS 104 or PHYS 112 may be substituted for PHYS 126. The BioSciences department has determined that credit awarded for PHYS 142 CONCEPTS IN PHYSICS II is not eligible for meeting the requirements of the Biosciences major.
- 5 In order to fulfill the Independent Research requirement, a minimum of 9 credit hours is required either through the course BIOS 310 (taken for at least 3 credit hours per semester), or a minimum of 13 credit hours is required through the courses BIOS 310 (taken for at least 3 credit hours) and BIOS 401, BIOS 411, BIOS 402, and BIOS 412.

Please note:

- In order to fulfill the Independent Research requirement, BIOS 310 must be taken for at least 3 credit hours per semester.
- · BIOS 411 is a co-requisite with BIOS 401.
- · BIOS 412 is a co-requisite with BIOS 402.
- Students registering for BIOS 401 and BIOS 411 are expected to take BIOS 402 and BIOS 412 the following semester.
- 6 The Capstone Requirement is in addition to the other lecture course requirements. The same course may not be used to satisfy more than one requirement for this major and/or major concentration.

Policies for the BS Degree with a Major in **Biosciences and a Major Concentration in Biochemistry**

Advising

Rice University policies are governed primarily by the General Announcements; students are encouraged to look there first for academic policies. Advising information specific to the Department of BioSciences can be found by clicking on the Undergraduate Program tab on the department website (https://biosciences.rice.edu/).

3

Program Restrictions and Exclusions

Students pursuing the BS Degree with a Major in Biosciences and a Major Concentration in Biochemistry should be aware of the following program restrictions:

- As noted in <u>Majors, Minors, and Certificates (https://ga.rice.edu/</u> undergraduate-students/academic-opportunities/majors-minorscertificates/), under Declaring Majors, Minors and Certificates, students may not obtain both a BA and a BS in the same major. Students pursuing the BS Degree with a Major in Biosciences and a Major Concentration in Biochemistry may not additionally pursue the BA Degree with a Major in Biosciences.
- Students pursuing the major in Biosciences may pursue only one major concentration within the major.
- · Students pursuing the major in Biosciences and a major concentration in Biochemistry may not additionally declare the minor in Biochemistry and Cell Biology.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (https://ga.rice.edu/undergraduate-students/academic-policiesprocedures/transfer-credit/). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors (https:// oaa.rice.edu/advising-network/transfer-credit-advisors/) on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Biosciences should be aware of the following departmental transfer credit guidelines:

· Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the BioSciences website: https:// biosciences.rice.edu/.

Opportunities for the BS Degree with a Major in Biosciences and a Major **Concentration in Biochemistry Academic Honors**

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (https://ga.rice.edu/undergraduatestudents/honors-distinctions/university/) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (https://ga.rice.edu/undergraduate-students/honors-distinctions/ university/). Some departments have department-specific Honors awards or designations.

Departmental Honors

Instructions on applying for the <u>Distinction in Research and Creative</u> Work (https://ga.rice.edu/undergraduate-students/honors-distinctions/ <u>university/</u>) award from the Department of BioSciences can be found by clicking on the *Undergraduate Program* tab on the <u>department website</u> (https://biosciences.rice.edu/).

Research in the BioSciences

Research is highly encouraged for all biosciences majors, and there are many opportunities for independent research at Rice. Information about research for credit and research internships specific to the Department of BioSciences can be found by clicking on the *Research* tab on the <u>department website (https://biosciences.rice.edu/)</u>.

Additional Information

For additional information, please see the BioSciences website: <u>https://biosciences.rice.edu/</u>.
