# BACHELOR OF ARTS (BA) DEGREE WITH A MAJOR IN ENVIRONMENTAL SCIENCE AND A MAJOR CONCENTRATION IN EARTH SCIENCE

### Program Learning Outcomes for the BA Degree with a Major in Environmental Science

Upon completing the BA degree with a major in Environmental Science, students will be able to:

- Demonstrate foundational knowledge in the natural sciences that is fundamental to the environmental sciences or application of the environmental sciences to other fields.
- Integrate knowledge of natural and applied sciences to understand complex natural systems and cycles.
- 3. Synthesize knowledge from natural sciences and engineering and understand how it applies to the study of the environment.
- 4. Understand environmental issues from a scientific perspective and be able to solve issues using a variety of interdisciplinary perspectives (e.g., social sciences, economics, humanities, and/or architecture).

### Requirements for the BA Degree with a Major in Environmental Science

For general university requirements, see <u>Graduation Requirements</u> (https://ga.rice.edu/undergraduate-students/academic-policies-procedures/graduation-requirements/). Students pursuing the BA degree with a major in Environmental Science must complete:

- A minimum of 23-24 courses (66-71 credit hours), depending on course selection, to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 4-6 courses (12-21 credit hours), depending on declared major concentration, taken at the 300-level or above.
- · A capstone senior seminar requirement.
- The requirements of a major concentration. When students <u>declare</u> the major (https://ga.rice.edu/undergraduate-students/academic-opportunities/majors-minors-certificates/#text) in Environmental Science, students must additionally identify and declare one of two major concentrations, either in:
  - Earth Science (p. 3), or
  - Ecology and Evolutionary Biology (https://ga.rice.edu/ programs-study/departments-programs/naturalsciences/environmental-science/environmentalscience-ba-ecology-evolutionary-biology-concentration/ #Ecology\_Evolutionary).

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially

declaring the major. To do so, please contact the <u>Office of the Registrar</u> ( <u>registrar@rice.edu</u>).

Environmental science is an interdisciplinary major that addresses environmental issues in the context of what we know about earth, ecology, and society. In addition to its science core, the major also seeks to provide students with some appreciation of social, cultural, and policy dimensions of environmental issues.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

### **Footnotes and Additional Information**

**Total Credit Hours** 

OF 15 40 4 /

- \* Note: <u>University Graduation Requirements</u> include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying FWIS or distribution requirements may additionally meet other requirements, such as the Analyzing Diversity (AD) requirement, or some of the student's declared major, minor, or certificate requirements. <u>Additional Credit Hours to Complete Degree Requirements</u> include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.
- STAT 180 may be substituted for STAT 280.
- The Core Courses acquaint students with a range of environmental topics encountered by scientists, engineers, managers, and policy makers. Core Courses stress the components of the global environment and their interactions, culminating with a tropical seminar that integrates across the field.
- BIOS 204 Environmental Sustainability: The Design & Practice of Community Agriculture (1 credit hour) may only be applied once toward the Field Experience Requirement.
- Students may also petition to complete alternative courses to be applied toward the Advanced Electives requirement.
- In addition to the courses in the Natural Sciences and Engineering Advanced Electives list, students may complete 1 course listed in the major concentration requirements outside of the student's declared major concentration.

### **Major Concentration: Earth Science**

Title

Students must complete a total of 3 courses (minimum of 10-12 credit hours, depending on course selection) as listed below to satisfy the requirements for the major concentration in Earth Science.

Code	Title	Hours
Core Requireme		
	from the following:	7-8
EEPS 220	INTRODUCTION TO COMPUTATION IN THE EARTH, ENVIRONMENT AND PLANETARY SCIENCES	
EEPS 322	EARTH AND PLANETARY CHEMISTRY AND MATERIALS	
EEPS 323	EARTH AND PLANETARY STRUCTURE AND DYNAMICS	
EEPS 340	GLOBAL BIOGEOCHEMICAL CYCLES	
Elective Require	ement	
Select at least 1	course from the following: <sup>1</sup>	3-4
Sciences (EE	om Earth, Environmental, and Planetary PS) courses offerings at the 300-level (or nated as Lecture in the course catalog	
EEPS 309 / FOTO 390	VISUALIZING NATURE	
EEPS 321	EARTH AND PLANETARY SURFACE ENVIRONMENTS	
EEPS 322	EARTH AND PLANETARY CHEMISTRY AND MATERIALS	
EEPS 323	EARTH AND PLANETARY STRUCTURE AND DYNAMICS

EEPS 437	EARTH'S NATURAL RESOURCES FOR THE ENERGY TRANSITION	
EEPS 439	GEOMICROBIOLOGY	
EEPS 467	GEOMECHANICS	
Total Credit Hou	irs	10-12

### **Footnotes and Additional Information**

Note that the course not completed in the Core Requirements list for the major concentration in Earth Science may be completed and applied towards the major concentration's Elective Requirement. Courses previously used to meet Core Requirements cannot be counted a second time as an Elective Requirement.

### Policies for the BA Degree with a Major in Environmental Science and a Major Concentration in Earth Science

### **Program Restrictions and Exclusions**

Students pursuing the BA Degree with a Major in Environmental Science and a Major Concentration in Earth Science should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (https://ga.rice.edu/ undergraduate-students/academic-opportunities/majors-minorscertificates/) under Declaring Majors, Minors and Certificates, students may not obtain both a BA and a BS in the same major. Students pursuing the BA Degree with a Major in Environmental Science and a Major Concentration in Earth Science may not additionally pursue the BS Degree with a major in Environmental Science.
- Students pursuing the major in Environmental Science may pursue only one major concentration within the major.
- Students pursuing the major in Environmental Science and a major concentration in Earth Science may not additionally declare the minor in Earth, Environmental and Planetary Sciences.

### **Transfer Credit**

For Rice University's policy regarding transfer credit, see <a href="Transfer">Transfer</a> Credit (https://ga.rice.edu/undergraduate-students/academic-policies-procedures/transfer-credit/). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of <a href="transfer credit advisors">transfer credit advisors</a> (https://oaa.rice.edu/advising-network/transfer-credit-advisors/) on their website: <a href="https://oaa.rice.edu">https://oaa.rice.edu</a>. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

### **Program Transfer Credit Guidelines**

Students pursuing the major in Environmental Science should be aware of the following program transfer credit quidelines:

 Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

#### Additional Information

For additional information, please see the following websites:

## Opportunities for the BA Degree with a Major in Environmental Science and a Major Concentration in Earth Science

### **Academic Honors**

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see <a href="Latin Honors"><u>Latin Honors</u></a> (<a href="https://ga.rice.edu/undergraduate-students/honors-distinctions/university/">Latin Honors</a> (<a href="https://ga.rice.edu/undergraduate-students/honors-distinctions/university/">https://ga.rice.edu/undergraduate-students/honors-distinctions/university/</a>). Some departments have department-specific Honors awards or designations.

### **Independent Research**

Students are encouraged to undertake independent research on environmentally related topics as part of their degree programs, in cooperation with one or more faculty. Course options for independent research, repeatable for credit, include: BIOS 401, BIOS 402, and EEPS 481.

Students also can enroll in senior honors thesis programs within their major concentrations, or by arrangement with other departments, and/or through the Rice Undergraduate Scholars Program. Students completing a thesis will also be eligible for the <u>Distinction in Research and Creative Work (https://ga.rice.edu/undergraduate-students/honors-distinctions/university/</u>), a university honor. Details for each program can be found here:

- · BIOS Honors Research
  - (https://biosciences.rice.edu/research-overview (https://biosciences.rice.edu/research-overview/))
- EEPS Senior Honors Thesis (https://eeps.rice.edu/eeps-honor-thesis (https://eeps.rice.edu/eeps-honor-thesis/))
- Rice Undergraduate Scholars Program (https://ouri.rice.edu/rusp (https://ouri.rice.edu/rusp/))

#### Additional Information

For additional information, please see the following websites:

- https://biosciences.rice.edu/
- https://earthscience.rice.edu/academics/undergraduate-program/
