BACHELOR OF SCIENCE (BS) DEGREE WITH A MAJOR IN ENVIRONMENTAL SCIENCE AND A MAJOR CONCENTRATION IN ECOLOGY AND EVOLUTIONARY BIOLOGY

Program Learning Outcomes for the BS Degree with a Major in Environmental Science

Upon completing the BS degree with a major in Environmental Science, students will be able to:

1. Demonstrate foundational knowledge in the natural sciences that is fundamental to the environmental sciences or application of the environmental sciences to other fields.
2. Integrate knowledge of natural and applied sciences to understand complex natural systems and cycles.
3. Synthesize knowledge from natural sciences and engineering and apply it to the study of the environment.
4. Understand environmental issues from a scientific perspective and be able to solve issues using a variety of interdisciplinary perspectives (e.g., social sciences, economics, humanities, and/or architecture).
5. Demonstrate knowledge and skills suitable for doing research and/or field studies in environmental science.

Requirements for the BS Degree with a Major in Environmental Science

For graduation requirements, see Graduation Requirements (https://ga.rice.edu/undergraduate-students/academic-policies-procedures/graduation-requirements/). Students pursuing the BS degree with a major in Environmental Science must complete:

- A minimum of 26-29 courses (76-82 credit hours), depending on course selection, to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 5-7 courses (15-24 credit hours), depending on declared major concentration, taken at the 300-level or above.
- An advanced field or research experience requirement.
- A capstone senior seminar requirement.
- The requirements of a major concentration. When students declare the major (https://ga.rice.edu/undergraduate-students/academic-opportunities/majors-minors-certificates/#text) in Environmental Science, students must additionally identify and declare one of two major concentrations, either in:
    - Earth Science (https://ga.rice.edu/programs-study/departments-programs/natural-sciences/environmental-science/environmental-science-bs-earth-science-concentration/#Earth_Science), ***or***
    - Ecology and Evolutionary Biology (p. 3).

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

Environmental Science is an interdisciplinary major that addresses environmental issues in the context of what we know about earth, ecology, and society. In addition to its science core, the major also seeks to provide students with some appreciation of social, cultural, and policy dimensions of environmental issues.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Advanced Field or Research Experience Requirement

Independent Research (see the Opportunities tab for additional information). [6]		
Select 1 course from the following:		*3*
BIOS 310	INDEPENDENT RESEARCH FOR BIOSCIENCES UNDERGRADUATES	
BIOS 401	UNDERGRADUATE HONORS RESEARCH	
EEPS 390	GEOLOGY FIELD CAMP	
EEPS 391	PRACTICAL EXPERIENCE IN EARTH, ENVIRONMENTAL AND PLANETARY SCIENCE	
EEPS 481	UNDERGRADUATE RESEARCH IN EARTH, ENVIRONMENTAL AND PLANETARY SCIENCES	

Capstone Senior Seminar Requirement

BIOS 495 / EEPS 495	SEMINAR: TOPICS IN ENVIRONMENTAL SCIENCE	3

Total Credit Hours Required for the Major in Environmental Science	**75-82**
Additional Credit Hours to Complete Degree Requirements *	7-13
University Graduation Requirements (https://ga.rice.edu/undergraduate-students/academic-policies-procedures/graduation-requirements/) *	31
Total Credit Hours	**120**

Footnotes and Additional Information

* **Note:** University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying FWIS or distribution requirements may additionally meet other requirements, such as the Analyzing Diversity (AD) requirement, or some of the student's declared major, minor, or certificate requirements. Additional Credit Hours to Complete Degree Requirements include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

1 STAT 180 may be substituted for STAT 280.

2 The Core Courses acquaint students with a range of environmental topics encountered by scientists, engineers, managers, and policy makers. Core Courses stress the components of the global environment and their interactions, culminating with a tropical seminar that integrates across the field.

3 BIOS 204 *Environmental Sustainability: The Design & Practice of Community Agriculture* (1 credit hour) may only be applied once toward the Field Experience Requirement.

4 Students may also petition to complete alternative courses to be applied toward the Advanced Electives requirement.

5 In addition to the courses in the Natural Sciences and Engineering Advanced Electives list, students may complete 1 course listed in the major concentration requirements outside of the student's declared major concentration.

6 Students are encouraged, but not required, to undertake independent research on environmentally related topics.

Major Concentration: Ecology and Evolutionary Biology

Students must complete a total of 3 courses (9 credit hours) as listed below to satisfy the requirements for the major concentration in Ecology and Evolutionary Biology.

Code	Title	Credit Hours
Core Requirements		
Select 2 courses from the following:		*6*
BIOS 271	ENVIRONMENTAL MANAGEMENT	
BIOS 373	CORAL REEF ECOSYSTEMS	
BIOS 374	GLOBAL CHANGE BIOLOGY	
BIOS 423	CONSERVATION BIOLOGY	
Elective Requirement		
Select at least 1 course from the following: [1]		*3*
BIOS 321	ANIMAL BEHAVIOR	
BIOS 326	INSECT BIOLOGY	
BIOS 334	EVOLUTION	
BIOS 336	PLANT DIVERSITY	
BIOS 338	ANALYSIS AND VISUALIZATION OF BIOLOGICAL DATA	

BIOS 373	CORAL REEF ECOSYSTEMS	
BIOS 423	CONSERVATION BIOLOGY	
BIOS 431	EMERGING INFECTIOUS DISEASES	
EEPS 340	GLOBAL BIOGEOCHEMICAL CYCLES	
Total Credit Hours		**9**

Footnotes and Additional Information

[1] Please note that the course not completed in the Core Requirements list for the major concentration in Ecology and Evolutionary Biology may be completed and applied towards the major concentration's Elective Requirement.

Policies for the BS Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology

Program Restrictions and Exclusions

Students pursuing the BS Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (https://ga.rice.edu/undergraduate-students/academic-opportunities/majors-minors-certificates/) under *Declaring Majors, Minors and Certificates*, students may not obtain both a BA and a BS in the same major. Students pursuing the BS Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology may not additionally pursue the BA Degree with a Major in Environmental Science.
- Students pursuing the major in Environmental Science may pursue only one major concentration within the major.
- Students pursuing the major in Environmental Sciences and a major concentration in Ecology and Evolutionary Biology may not additionally declare the minor in Ecology and Evolutionary Biology.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (https://ga.rice.edu/undergraduate-students/academic-policies-procedures/transfer-credit/). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors (https://oaa.rice.edu/advising-network/transfer-credit-advisors/) on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the major in Environmental Science should be aware of the following program transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Opportunities for the BS Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (https://ga.rice.edu/undergraduate-students/honors-distinctions/university/) (*summa cum laude*, *magna cum laude*, and *cum laude*) and Distinction in Research and Creative Work (https://ga.rice.edu/undergraduate-students/honors-distinctions/university/). Some departments have department-specific Honors awards or designations.

Independent Research

Students are encouraged to undertake independent research on environmentally related topics as part of their degree programs, in cooperation with one or more faculty. Course options for independent research, repeatable for credit, include: BIOS 401, BIOS 402, and EEPS 481.

Students also can enroll in senior honors thesis programs within their major concentrations, or by arrangement with other departments, and/or through the Rice Undergraduate Scholars Program. Students completing a thesis will also be eligible for the Distinction in Research and Creative Work (https://ga.rice.edu/undergraduate-students/honors-distinctions/university/), a university honor. Details for each program can be found here:

- **BIOS Honors Research** (https://biosciences.rice.edu/research-overview (https://biosciences.rice.edu/research-overview/))
- **EEPS Senior Honors Thesis** (https://eeps.rice.edu/eeps-honor-thesis (https://eeps.rice.edu/eeps-honor-thesis/))
- **Rice Undergraduate Scholars Program** (https://ouri.rice.edu/rusp (https://ouri.rice.edu/rusp/))
